DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:

Regarding claims 1 and 28, the closest prior arts, Jönsson and Desblancs, disclose a cellular telephone that comprises printed circuit board 50, keypad 30, display 40, outer cover 20 (Fig. 2) consisting of two parts 23 & 24, and frame construction 22 (Fig. 2) which is a mechanical entity separated from printed circuit board 50, keypad 30, display 40, outer cover 20, into which the above parts are mechanically coupled (see Jönsson: FIG. 1 and 2 and Col. 3, lines 19-35), a memory card reader (see Desblancs et al.: FIG. 1 and Col. 2, lines 24-25). However, Jönsson and Desblancs fail to teach a frame construction as a mechanical entity separate from the printed circuit board, keypad, display, reader for a detachable memory module and outer cover parts, such that the at least two parts of the outer cover are mechanically attached opposite sides of the frame construction (as amended by the applicant – see the Amendments on page 2-5 and the Remark on page 6).

Claims 22-27 depend on claim 1. Therefore, they are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
